

4th GIF Symposium

16-17 October 2018

at the 8th edition of Atoms for the Future
UIC Paris, France

The Fourth GIF Symposium is embedded in the [Atoms for the Future Conference](#) and designed to inform and educate audiences beyond the GIF community (MSc and PhD students, young professionals, policy makers and nuclear stakeholders).

Elevator Pitch Challenge (EPiC)

Students, PhDs or young professionals submitting an abstract, video or paper to the conference are highly encouraged to take part in the Elevator Pitch Challenge (EPiC) **. The EPiC is an additional contest that will take place right before the Technical Sessions. The participants will have 3 min to present their subject and convince the audience (this 3' talk may be supported by a short Powerpoint). The best EPiC presentation will be elected by the full audience and will be rewarded.

*** Practical information on the EPiC competition will be available on the websites.*

Deadline for Abstracts: 31 August 2018

Topical areas covered in technical sessions:

- **Track 1 & 2:** Progress on GEN-4 systems (from concept to demonstration) – Part 1 and 2
- **Track 3:** Human capital development (Education & Training)
- **Track 4:** Research infrastructures
- **Track 5:** Safety and security
- **Track 6:** Fuels and materials
- **Track 7:** Advanced components and systems for GEN-4 reactors
- **Track 8:** Integration of nuclear reactors in low carbon energy systems
- **Track 9:** Decommissioning & Waste Management
- **Track 10:** Operation, Maintenance, Simulation & Training
- **Track 11:** Construction of nuclear reactors
